Photo-Card Maker vs. Post cards at Snapfish.in

Valentine's Day is the perfect time to make your special someone realize what they mean to you. And most of the times, you don't feel the same emotions for two different people. So why get stuck with a pile of greeting cards that cannot be customizable when you can make your own!

BY KAMAKSHI S

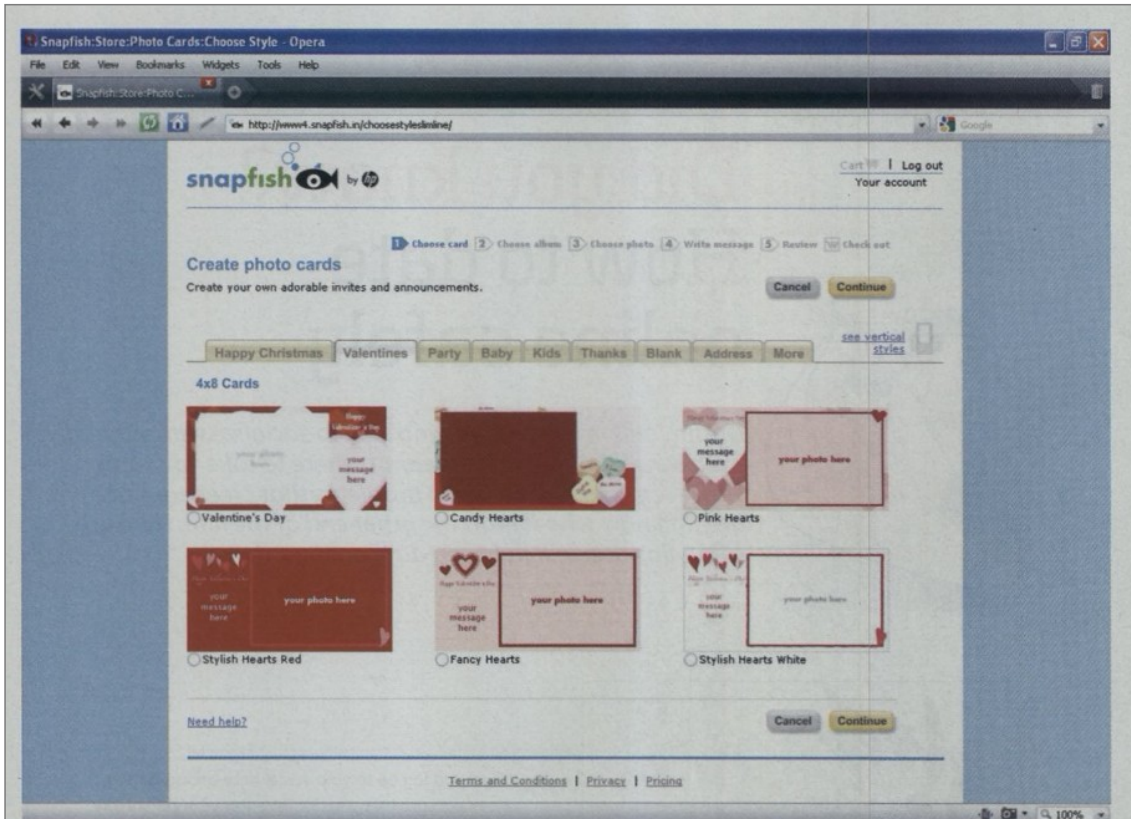

FEATURES PHOTO-CARD MAKER 2:

- ▶ When you are using a tool like Photo-Card Maker, you can create as many variations of the same card but with different text and photographs.
- ▶ The collection of templates is updated regularly on the website of the application in accordance with the flavor of the season and festivities happening at a point of time.
- ▶ The installation process for the application and importing of templates is very easy and straightforward. The templates however, cannot be used with any other applications.
- ▶ The images are masked into the template automatically but there is an option to place the image on top of the template as well.

WHAT SNAPPISH.IN OFFERS AND PHOTO-CARD MAKER 2 DOESN'T:

- ▶ With Snapfish, you are guaranteed high quality HP prints.
- ▶ The website delivers products in a record time of 4-6 working days, which even the postal department does not achieve.
- ▶ Apart from photo cards, you can also shop for other merchandise that can be personalized with photographs like magic mugs, key chains etc.
- ▶ If you need to add a personalized message which is long and you don't want it to feature on the face of the card, you can opt for a personalized greeting card instead.

WHAT PHOTO-CARD MAKER 2 OFFERS AND SNAPPISH.IN DOESN'T:

- ▶ You can create as many images as you require and don't need to print a standard 10 post cards per set or in a standard 4x8 inches size.
- ▶ You can customize the text appearing on the face of the postcard, unlike that at Snapfish.
- ▶ Even if you consider printing your cards on art cards away from home, it will still be enormously economical.
- ▶ You can save the changes made to a template as a fresh template to be reused at a later stage. You cannot create templates at Snapfish.

WHAT'S SIMILAR BETWEEN PHOTO-CARD MAKER 2 AND SNAPPISH.IN:

- ▶ You can create physical postcards using both these tools which can be mailed in post to your loved ones.
- ▶ Cards created using both these tools can be personalized with photographs.
- ▶ There are several templates that you can pick from to create your postcards.
- ▶ Both offer new templates periodically, keeping in mind the flavor of the season and festivities.
