### Cyber-shot from Sony Ericsson phone comes with facebook built-in

Sony Ericsson has introduced the feature rich 5 MP C903 Cyber-shot™ phone. With a standby Facebook application, the C903 Cyber-shot™ instantly updates the user's status, pictures and receives friends' status. For those fond of photography, the device comes with 5 megapixel camera, premium imaging tools like 'Smile Shutter', Face detection, Active lens cover, BestPic™ and dedicated camera keys.

The device enables users to bring alive their images with the in-built Snapfish by HP application using which they can order prints and have them delivered directly to their doorstep.
