### Sony Ericsson C510

This new addition to the Cyber-shot series has a 3.2-megapixel camera

Soon to be launched Sony Ericsson C510 will strengthen the company's Cyber-shot series. The phone boasts of the highest quality imaging technology with a 3.2-megapixel Cyber-shot camera. The Smile Shutter technology, which detects the smile of a person, is also present in the phone.

The Sony Ericsson C510 has auto focus and digital zoom. Some other interesting features include face detection technology, video blogging, media player and YouTube client. Location-based services like geo-tagging of photographs and Google Maps are also present. The device has a 2.2 inch scratch proof TFT display. It has an internal memory of 100 MB, which can be expanded through the Memory Stick Micro. The C510 supports 3G, motion and 3D games. Users can transfer files and music through Bluetooth. The phone weighs 92 grams and has the following dimensions: 107x47x12.5 mm.

The device is available in future black and radiation silver. It has an in-built Snapfish feature by HP to take high quality printouts of photographs. The phone has two versions: the C510a and C510c. The Sony Ericsson C510 is expected to cost Rs 17,000. ■
