Page 1 - Under Rs. 1,000 >>

It's that time of the year when love is in the air, or when companies use Valentine's Day as a good marketing opportunity to clear off old stock! Whichever way you look at it, men tend to run out of ideas about what to gift their soul mate. Well, you could run to the nearest gift store and buy those cheesy mugs/cards/photo-frame etc., which I'm sure she'll adore at first, but will eventually end up in her cupboard, collecting dust.

We at Techtree believe that gifts can be cute as well as usable in daily life. Here's a list of things that you could get her that she will remember as she uses it in her day-to-day life.

Under Rs. 1,000

- Cute-looking Flash drives

Flash drives are something that everybody needs to move data across computers. They have become very cheap now and come in a variety of cool shapes. Out of multitudes of drives you could pick the **Silicon Touch 810 8GB**. It's really tiny and looks like a fashion accessory, thanks to the lanyard that's made of sparkling Swarovski crystals. It'll set you back by Rs. 1000.

If you want something cheaper, then a **Kingston DataTraveler Mini Slim** is a good pick. It's equally tiny, comes in three attractive colours (including pink) and the 4GB model costs just 500 bucks.
